

Services

Services we provide

At SNAP Car Wash & Valet, we offer a wide range of services to our clients. Click on the services below and choose the one that is right for your vehicle, and then contact us for the service.

Snap wash

The speedy car wash service for working people and busy parents, SNAP Wash is the fastest service around that doesn't compromise on quality. We know how precious your time is.

- High-pressure wash to remove all the dirt and debris from your car with focus on tyres, rims, bumpers and hidden parts of your car.
- Wheel Wash process that removes grime & brake dust leaving sparkling clean rims and then tyres treated with long lasting protective shine.
- Thorough interior vacuum clean including all mats, seats and boot.
- Clean windows glass inside and out.
- Car floor mats are removed and washed (where necessary).

Snap Platinum Wash

In our SNAP Platinum Wash, we offer all the services we offer in SNAP Wash plus we focus on removing all the dust from your car, cleaning the dashboard, a tyre wash, car drying and much more.

- High-pressure wash to remove all the dirt and debris from your car with focus on tyres, rims, bumpers and hidden parts of your car
- Wheel Wash process that removes grime & brake dust leaving sparkling clean rims and then tyres treated with long lasting protective shine.
- Thorough interior vacuum clean including all mats, seats and boot.
- Wipe door & boot jambs.
- Clean windows glass inside and out.
- Cleaning and conditioning of dashboard and internal trims.
- We recommend getting at least one SNAP Platinum Wash every month.

Includes full Snap Platinum Wash

SNAP Polish includes all the services of the SNAP Platinum Wash. Once your car is washed and dried, we then proceed with the polishing process which includes:

- Smoothing the car's exterior using a clay bar.
- Removing all debris, bugs and tar before proceeding with the polish.
- Manually polishing your car using top quality polish.
- Conditioning the exterior trims.

OR

- Polish metal trim for exceptional appearance.

Snap Interior Detail

With our SNAP Interior Detail, every single part of your car is cleaned. There are three phases of the Interior Detail: intensive interior wash, exterior wash and exterior finishing.

We begin the interior detail by cleaning your car's interior with vacuum.

- Vacuum interior including all mats, seats and boot.
- Leather seat cleaning and conditioning treatment.

OR

- Steam clean carpets and cloth seat trim.
- Remove stains from fabric.
- Cleaning and conditioning of dashboard and internal trims.

In the next phase, the car exterior is washed with high pressure and is shampooed for a nice and tidy look.

The final phase is exterior finishing which includes cleaning of doors, boot jambs, windows and glass as well as application of tyre shine. The car is then dried, leaving it with a whole new look.

Snap Full Detail

SNAP Full Detail includes the services of the SNAP Polish and Interior Detail services.

Interior Detail

- Vacuum interior including all mats, seats and boot.
- Leather seat cleaning and conditioning treatment.

OR

- Steam clean carpets and cloth seat trim.
- Remove stains from fabric.
- Cleaning and conditioning of dashboard and internal trims.

Exterior Wash

- High-pressure wash to remove all the dirt and debris from your car with focus on tyres, rims, bumpers and hidden parts of your car.
- Wheel Wash process that removes grime & brake dust leaving sparkling clean rims.

Engine Cleaning

This part of the service is only provided on the customer's specific request. The engine cleaning is carried out after the interior detail and car wash and involves the removal of grease and any other debris from the engine.

Polish Preparation

After the engine cleaning, clay bar treatment is applied to your car to remove toxins.

Exterior Detail

- Mark and scratch removing treatment is the first step in the exterior detail where we aim to restore the colour of your car.
- After intensive swirl reduction treatment, we then do the polishing.
- After polishing the car, an expert will look at the exterior and fine-tune anything which needs correcting.

Finishing

Finally, we give a great exterior finish to your car. We make sure that nothing is left untouched.

Snap Paint Protection

Our paint protection service will help you save your car's paint from fading. It is common to have paint fade with the

passage of time. UV rays, acid rains and time are the three main contributing factors.

SNAP Paint Protection will revitalise your car's paint.

Snap paint protection has 5 phases:

1. In the first phase, your car is cleaned from inside. You get all the features of SNAP Interior Detail.

2. In the second phase, your car's exterior is washed.

3. Then we move ahead with clay bar treatment which is a prerequisite of painting and polishing.

4. In the fourth phase, we proceed with the paint protection treatment which involves a lot of effort, attention to detail and care. Scratches and swirls are removed to restore colour and shine. The paint protection treatment is then done with exterior duco and finished by conditioning the paint.

5. In the final phase, we focus on exterior finishing.

Snap Buffing

The SNAP Buffing service will make your car's exterior smooth and shining.

Buffing is done in 5 steps.

1. Full interior detail for interior cleaning of the car

2. Exterior wash service to ensure that there is no debris on the body of the car

3. Clay bar treatment

4. Buffing treatment (gives your car shine and smoothness)

5. Exterior finishing of the car

Snap Valet

Car parking is a major issue in Australian shopping centres. This is why we offer one of the best valet services at SNAP Car Wash & Valet. We park your car in our valet, secure it, wash it (if requested) and return it to you at the agreed time.

SNAP Valet Service is best for families, travellers, businesses or anyone else who want to experience a hassle free solution to the very busy parking situations at shopping centres.
